**Brill Power**

We make batteries perform ⊛ better, live ⊡ longer, cost ⊪ less and be more ♻ sustainable.

Comprised of three key technologies the Battery Intelligence Platform replaces legacy battery management systems and power conversion technology.
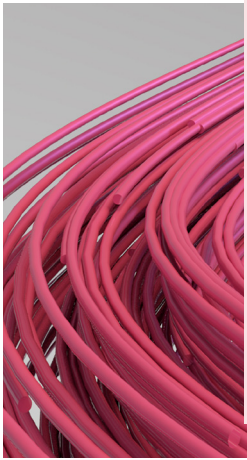

Battery Intelligence Platform

Brill Power

Battery Management+
Step-change improvements in battery lifetime, performance and safety.

BrillCore

Universal Operating System
The world's first future-proof, hardware-agnostic Operating System for batteries.

BrillOS

Connected Intelligence
Delivers end-to-end data and insights for safe and optimal battery use.

BrillAnalytics

Up to 60% longer battery lifetime

Augmentation ready

Improved safety

Up to 29% lower lifetime cost

Significantly higher up time

Lower system complexity
